--Soft Skills--

Learning Outcome ID	Learning outcomes	Activities and tasks I will	Evidence: Evidence that I can provide
	By the end of my work placement, I aim to develop skills in website hosting, implementing CRUD operations and database connections, changing port addresses, and managing authentication and authorization.	I will achieve this learning outcome by developing blog websites assigned to me by my supervisor and engaging with my supervisor for group discussion about the websites during my internship.	includes screenshots of chats with my supervisor discussing the websites, taking ideas, and other related topics, such as features. Additionally, I will capture discussions and suggestions through videos and photos as evidence of my progress and collaboration.

LO1	To develop Leadership and Presentation skills	Developing leadership skills, conquering the fear of public speaking, and practicing presentations by presenting projects during my internship.	I will show photos evidence of the presentation that I have done in the internship in the presence of supervisor.
LO2	Time Management	Completing the projects assigned by the supervisor within the provided deadlines and consistently arriving on time for the internship.	submit work at the end of each day and provide regular updates on ongoing tasks as requested by the supervisor. I can show the completed work as evidence on GitHub.
LO3	Analytical and critical thinking	Making rational decision gathering and analysis data through different sources learning how things work listening feedback given by the supervisor.	I will provide photos of feedback given by the supervisor and I will also provide screenshots of case studies on related projects

LO4	Independent learning skills	Learning the Python programming language and the Django framework to enhance my current technical skills	I will be providing links to various websites featuring documentation, as well as courses and tutorials, of the programs I have learned.
-----	-----------------------------	--	--

--Technical Skills--

LO5	Database (MySQL)	Implement MySQL in the web application.	Screenshots of the codes of implementing database MySQL in the web application for the backend.
LO6	Version Control	Learn to use Git and GitHub for recording code in sets of files, making development safer and more efficient.	I am providing evidence in the form of a screenshot of the GitHub repository where the project is securely stored.
LO7	Learn website development and debugging codes	Developing and building website applications using Django. Debugging	I will be providing screenshots of the solving process and tools used.

		errors in real time using different kinds of tools and methods.
